

Please keep the do not call law strong. We are getting some relief from bombardment of solicitations don't water the law down. I don't believe I should be harassed in my home by strangers. Obscene statements have been made to my family because we didn't wish to be called again and their number would come up unavaible so we couldn't even report them. The Privicy of my home has been much better since the New Jersey no call law has been in effect.
